RISK 2018

7th Workshop on Risk Management and Insurance

Dear colleague,

The **Department of Economics** of the **University of Cantabria**, in collaboration with the **Research Group on Risk in Insurance and Finance** of the **University of Barcelona**, is pleased to announce the 7th Workshop on Risk Management and Insurance Research (RISK, 2018), which will be held in Santander (Spain) from April 25 to April 27, 2018.

In line with previous conferences, RISK 2018 will provide a platform to share new ideas, research results and development experiences in actuarial science and finance. In this edition, **Prof. Dr. Enkelejd Hashorva (Université de Lausanne)** will be the keynote speaker of the inaugural session.

The RISK 2018 topics include, but are not limited to, the following ones:

- Theory, Models and Computational Methods for Risk Analysis
- Quantitative Risk Management
- Financial Modeling
- Uncertainty Modeling
- Environmental Risks
- Life Insurance, Non-Life Insurance, Reinsurance
- Actuarial Mathematics
- Actuarial and Financial Data Analysis
- Big Data technologies in the Insurance Industry.

Committees

Organizing Committee Chairs

Montserrat Guillén Estany, Universitat de Barcelona, Spain.
José María Sarabia Alegría, Universidad de Cantabria, Spain.

Local Organizing Committee

Vanesa Jordá Gil, Universidad de Cantabria, Spain.
Faustino Prieto Mendoza, Universidad de Cantabria, Spain.
Lorena Remuzgo Pérez, Universidad de Cantabria, Spain.
Carmen Trueba Salas, Universidad de Cantabria, Spain.

Scientific Committee

Pilar Abad Romero, Universidad Rey Juan Carlos, Spain.
Alejandro Balbás de la Corte, Universidad Carlos III de Madrid, Spain.
Catalina Bolancé Losilla, Universitat de Barcelona, Spain.
Enrique Calderín Ojeda, University of Melbourne, Australia.
Ana Debon Aucejo, Universitat Politecnica de Valencia, Spain.
José M. Feria Domínguez, Universidad Pablo Olavide, Spain.
Emilio Gómez Déniz, Universidad de Las Palmas de Gran Canaria, Spain.
Montserrat Guillén Estany, Universitat de Barcelona, Spain.
Antonio J. Heras Martínez, Universidad Complutense de Madrid, Spain.
Enrique J. Jiménez Rodríguez, Universidad Pablo de Olavide, Spain.
Luís Ortíz Gracia, Universitat de Barcelona, Spain.
Faustino Prieto Mendoza, Universidad de Cantabria, Spain.
Juan Manuel Rodríguez Poo, Universidad de Cantabria, Spain.
José María Sarabia Alegría, Universidad de Cantabria, Spain.
Miguel Angel Sordo Díaz, Universidad de Cádiz, Spain.
Francisco José Vázquez Polo, Universidad de Las Palmas de Gran Canaria, Spain.
José Luis Vilar Zanón, Universidad Complutense de Madrid, Spain.

Venue

The sessions of the RISK2018 International Workshop (April 25-27, 2018) will be held at the Facultad de Ciencias Económicas y Empresariales, University of Cantabria (UC), Spain. It is located at the Campus de las Llamas (Avda. de los Castros s/n), in the municipality of Santander.

Campus de las Llamas

1. Facultad de Derecho-Económicas
2. Pabellón de Gobierno
3. Filología (Servicio de Informática)
4. Interfacultativo
5. Tres Torres
6. Polideportivo
7. Instituto de Física
8. Facultad de Ciencias
9. I+D Ingeniería de Comunicaciones
10. Caminos (Aulas)
11. Caminos (Laboratorios) y CDTUC (Fase-B)
12. Torre-Nave Ensayos
13. CDTUC (Fase-A)
14. Ingenieros Industriales y Telecomunicaciones
15. C.M.

RISK 2018 Conference Timetable.

Wednesday, April 25	Thursday, April 26	Friday, April 27
	Registration 8:30-9:15	Registration 8:30-9:00
	Opening Session 9:15-9:30	Concurrent Sessions IV 9:00-10:30

RISK 2018. Conference Program

WEDNESDAY – APRIL 25th

Welcome Event

Hotel Santemar. C/ Joaquín Costa nº 28, Santander

20:00-22:00

THURSDAY- APRIL 26th

09:15 - 09:30

Opening session

**Salón de Actos. Facultad de Ciencias Económicas y Empresariales
Universidad de Cantabria**

Speakers

José María Sarabia, *University of Cantabria*
Montserrat Guillén, *University of Barcelona*
Begoña Torre Olmo, *Santander Financial Institute*

09:30 - 10:30

Plenary session – Salón de Actos**From Classical to Parisian Ruin in Gaussian Risk Models**

Prof. Enkelejd Hashorva

Full professor, Actuarial Department
HEC Lausanne**Prof. Enkelejd Hashorva**

Enkelejd Hashorva is Professor of Actuarial Mathematics at HEC Lausanne. He holds an M.Sc. in Pure Mathematics and a Ph.D. in Applied Probability from the University of Bern. Since 2003 he is Actuary SAV; in 2004 he became Privat Dozent for Applied Stochastic at the Institute of Mathematical Statistics and Actuarial Science of the University of Bern. In his 10 years actuarial career at Allianz Suisse Insurance Company, Enkelejd served as head of pricing non-life department from July 2005 until September 2010. His principal research interests include insurance mathematics with a focus on pricing, price optimization, customer future value, stochastic reserving, risk management and capital allocation, perturbed ruin models. Besides the insurance field, his active research spectrum includes topics from Gaussian processes and random fields, approximation theory of stochastic processes, extreme value theory and statistics, efficient rare-event simulation, multivariate distributions, stochastic geometry. Currently, Enkelejd runs several research projects supported by the Swiss National Science Foundation. He has published papers in relevant journals in probability, statistics, insurance and risk analysis. He is associate editor of several journals including: Journal of Applied Probability, Statistics & Probability Letters, Extremes and European Actuarial Journal among others.

Abstract: This talk is concerned with Gaussian risk models which approximate risk processes modelling insurance portfolios. Such probabilistic risk models become more realistic when various financial elements including inflation, deflation and taxation are taken into account. Risk measures of interest in our settings are the classical and Parisian ruin for both finite and infinite time-horizon. Despite the complicated expressions of those risks measures, their approximation for large values of initial capital can be obtained explicitly using probabilistic and asymptotic techniques.

Another quantity of interest in the Gaussian risk models is the ruin time, which for Gaussian risk models can be approximated by some exponential or Gaussian random variable, provided that the initial capital becomes large. The asymptotic findings in the Gaussian paradigm are useful in practice for instance as benchmark values, or for motivating various risk adjustments. Besides, our findings inspire some theoretical investigations for extremes of Gaussian random fields.

T1B Environmental and health risk - Room 24		
	Claudia García Universidad de Granada	Environmental risk: energy efficiency in Spain. Claudia García García, Catalina B. García García, Ainara Rodríguez Sánchez, Román Salmerón Gómez
	Lorena Remuzgo Universidad de Cantabria	Environmental risk: clustering countries from a distributional perspective of the main pollutants. Carmen Trueba, Lorena Remuzgo
	Ana Debón Universitat Politècnica de València (Spain)	Indicadores de mortalidad para Colombia. Gisou Díaz, Ana Debón, Vicent Giner-Bosch

Social Program

Guided visit to Comillas and Santillana del Mar. The departure will be at the Facultad de Ciencias Económicas y Empresariales (Universidad de Cantabria)

16:30 - 20:30

Gala Dinner

**Parador de Santillana del Mar .
Plaza Ramón Pelayo, s/n, Santillana del Mar, Cantabria**

20:30 - 23:00

FRYDAY - APRIL 27th

Speaker	Title and authors
T1A Statistical distributions in risk management - Room 22	
José María Pérez <i>University of Las Palmas de Gran Canaria</i>	On the use of the generalized poisson distribution in actuarial statistics. E. Gómez-Déniz , F.J. Vázquez-Polo , J.M. Pérez-Sánchez and E. Calderín-Ojeda
Lluís Bermúdez <i>Universitat de Barcelona</i>	Modelling of claim counts using finite mixture models. Lluís Bermúdez, Dimitris Karlis
Vanesa Jordá <i>Universidad de Cantabria</i>	Modelling dependent risks with heavy-tail marginals. José María Sarabia, Montserrat Guillen, Faustino Prieto, Vanesa Jordá
Inmaculada Barranco Chamorro <i>University of Sevilla</i>	A note on slash methodology to deal with symmetrical and unimodal distributions with heavy tails. I. Barranco-Chamorro, J. Reyes, D. Gallardo Mateluna
T1B Financial risk - Room 24	
Carlos Esparcia <i>Universidad de Castilla La Mancha</i>	Time-varying risk aversion. an application to european optimal portfolios. Antonio Díaz, Carlos Esparcia
Luis Ortiz <i>University of Barcelona</i>	Quantifying credit portfolio losses under multi-factor models. G. Colldejorns Papiol, L. Ortiz-Gracia, C.W. Oosterlee
Javier Perote <i>Universidad de Salamanca</i>	Expected shortfall assessment in commodity ETF portfolios with semi-nonparametric specifications. Esther del Brio, Andrés Mora-Valencia, Javier Perote
Joaquim Gabarro <i>Universitat Politècnica de Catalunya</i>	Power to Invest. Jorge Castro, Joaquim Gabarro, María Serna

09:00 - 10:30	Coffee Break
10:30 - 11:00	

11:00 - 12:15	Speaker	Title and authors
T1A Life insurance I – Room 22		
	Mercedes Ayuso <i>University of Barcelona</i>	Estimación de la concurrencia de pensiones para las generaciones nacidas durante el baby-boom español. Estefanía Alaminos, Mercedes Ayuso
	Carmen Boado-Penas <i>University of Liverpool</i>	Automatic Balancing Mechanisms for Mixed Pension Systems. Carmen Boado-Penas, Humberto Godínez-Olivares, Steven Haberman
	Patricia Carracedo <i>Universidad Internacional de Valencia</i>	Spatio_temporal modeling mortality for ages after retirement in Europe. Patricia Carracedo, Ana Debón
T1B Models for risk analysis II – Room 24		
	Yoel Year <i>Universidad Carlos III de Madrid</i>	Simultaneous risk events modeling by the batch markov-modulated Poisson process. Yoel G. Yera, Rosa E. Lillo Pepa Ramírez-Cobo
	José Garrido <i>Concordia University</i>	Bayesian Credibility for GLMs. Oscar Quijano, José Garrido
	Antonio J. Sáez-Castillo <i>Universidad de Jaén</i>	Applications of the GLM Conway-Maxwell-Poisson regression model on the analysis of financial and actuarial datasets. Antonio J. Sáez-Castillo, Antonio Conde-Sánchez

12:15 - 13:30	Speaker	Title and authors
T1A Life insurance II- Room 22		
	Francisco G. Morillas <i>Universitat de València</i>	¿Es adecuado construir nuestra tabla de mortalidad a partir de la del conjunto del sector? Riesgos y soluciones. Jose M. Pavía, Josep Lledó, Francisco G. Morillas
	Zuleyka Díaz-Martínez <i>Universidad Complutense de Madrid</i>	Simplificando la credibilidad de Hachemeister . Zuleyka Díaz Martínez, José Fernández Menéndez, Óscar Rodríguez Ruiz
	Enrique Calderin <i>University of Melbourne</i>	Estudio de la Información del Microbioma en Modelos de Análisis de Riesgo. Enrique Calderin Ojeda, Guillermo H. Lopez Campos
T1A Premium computation and risk – Room 24		
	Jose Luis Vilar Zanón <i>Universidad Complutense de Madrid</i>	An experience based premium rate discounts system in crop insurance using Tweedie's regressions. Jose-Luis Vilar-Zanón, Antonio Heras
	Gema Pigueiras <i>Universidad de Cádiz</i>	Una familia de principios de prima basada en una distribución de riesgo ajustada. Antonia Castaño-Martínez, Gema Pigueiras, Miguel A. Sordo
	Marta Sánchez <i>Universidad de Cádiz</i>	Un análisis de sensibilidad Bayesiana aplicada a distintos principios de primas. M. Sánchez-Sánchez, M. A. Sordo, A. Suárez-Llorens, E. Gómez-Déniz

13:30 - 14:00

Closing Session

**Salón de Actos. Facultad de Ciencias Económicas y Empresariales
Universidad de Cantabria**

Speakers

Montserrat Guillén, *University of Barcelona*
José María Sarabia, *University of Cantabria*
Juan Rodríguez Poo, *University of Cantabria*

Lunch

14:00 - 15:30

Social Program

Wednesday, 25th April

20:00h - 22:00h Welcome reception at the Hotel Santemar.
Address: C/ Joaquín Costa nº 28, Santander.

Thursday, 26th April

16:30h - 23:00h Guided visit to Comillas and Santillana del Mar. The departure will be at the Facultad de Ciencias Económicas y Empresariales (Universidad de Cantabria).

After the visit, the Gala Dinner of the congress will take place at the Parador de Santillana del Mar.
